Roadshow Masters Website Proposal

Dear Mr. Alexandar

We appreciate the opportunity to submit a proposal for the development of your Roadshow company website. We believe that our expertise and experience make us an ideal partner for this project.

Project Overview

In this project, we will preserve the existing content of the current website while completely reimagining its design. Our goal is to create a fresh, vibrant, and engaging new look that is both snappy and responsive. This redesign will enhance the user experience, making the site more attractive and easier to navigate.

Additionally, the proposed Roadshow Masters website will incorporate the following new features

Additional Features

1. Get an Instant Quote Section:

We will introduce a new section that allows customers to easily obtain an instant quote.

This feature will enable customers to select from the various options offered by Roadshow Masters and customize their required service. Once the selections are made, the order will be sent directly to the Roadshow Masters team for prompt processing.

2. WhatsApp Integration:

To enhance communication, we will add a WhatsApp feature that allows customers to reach out directly to you via WhatsApp messages. This will provide a convenient and efficient way for customers to contact you with inquiries, requests, or feedback.

Webapp Cost Implications

- ✓ Website Redisgn.
- ✓ Additional Features Intergration. **25,000 KES**
